

Minima is available in a wide range of materials including HPL laminate and Glass. You can specify High Pressure Laminate with 13 to 30mm for a truly impressive look.

Toughened Glass

10mm toughened safety glass finished with polished edges. Consistent 100% opacity, hardwearing and suitable for wet or dry areas.

High Pressure Laminate:

13mm to 24mm standard thickness two side laminated color, faced both sides with HPL. Suitable for dry areas with more intense use.

Minima has been developed to allow the doors to be lifted off the hinges in an emergency, combining safety with design.

150 - 100mm pedestal leg has been redesigned to complement the seamless look of the cubicle in satin anodised aluminium and is set back from the front to give a floating appearance.

The headrail is particularly impressive, making a statement with elegant, clean lines and an attractive, contemporary shape.

The overall look is finished perfectly with a satin anodised indicator bolt and faceplate, creating a seamless link between door and pilaster.
